

ACHIEVE PERFECT ALIGNMENT

TransferRite® 1310 Grid is a clear application tape used for the transfer of vinyl graphics. This film provides the clarity needed for precise alignment, with the added benefit of a 1" printed grid pattern to help you get the most accurate placement possible.

TransferRite **ULTRA**® 1310 with Grid Pattern

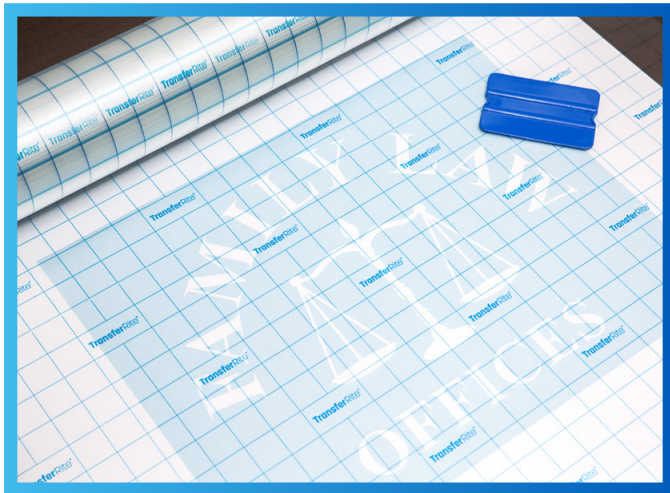

1310 Grid medium tack | clear film

Ideal for craft applications

Great for alignment, lettering, and fine details

ULTRA® adhesive provides superior adhesion to liner

Also available with a liner

We know how tough exact alignment can be, so we took our TransferRite 1310 to the next level, incorporating a 1" grid pattern into the film.

Placement becomes effortless with 1310 Grid. Use the 1" pre-printed squares to meticulously line up vinyl artwork with your surface.

Keeping decals level can be a challenge. With 1310 Grid, you can square up your decals to make sure they are in line with their surroundings.
