

# ETCHED GLASS WITH EASE

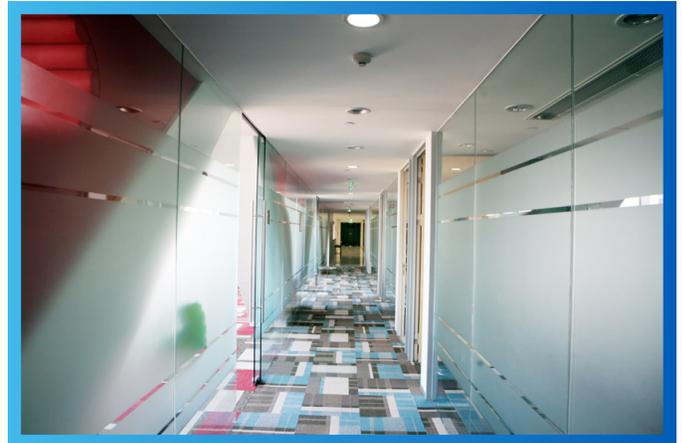

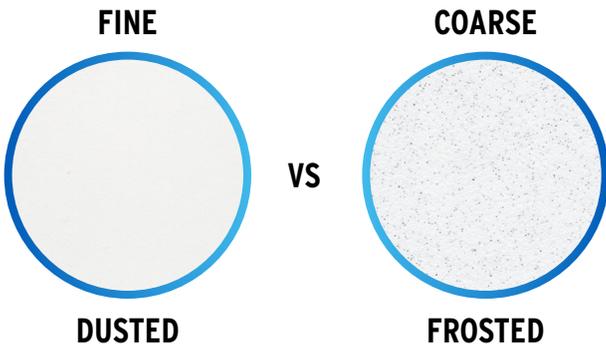

Frosted & dusted etched glass films can be very difficult to transfer and install. Their special surfaces make it tough for application tapes to grip. TransferRite® offers two unique installation solutions that will greatly reduce the frustration factor produced by these specialty films.

## TransferRite **ULTRA**® FOR ETCHED GLASS VINYL

**794U** very high tack | premium, heavyweight paper  
Designed for dusted and frosted etched glass vinyls  
**ULTRA**® adhesive provides superior adhesion to liner  
Tear resistant

**1320** high tack | clear film  
Great for small graphics with fine detail  
Pairs well with specialty vinyls like etched glass, reflective, and holographic films  
**ULTRA**® adhesive provides superior adhesion to liner

Applying large pieces of etched glass films can be a major challenge. Heavyweight TransferRite 794U adds stability during installations.

Etched glass decals with fine details pose problems for most application tapes, but TransferRite 1320 picks up delicate shapes with ease.
