

TransferRite®

APPLICATION TAPES

SPECIALTY PRODUCTS

TransferRite's line of Specialty application tapes offer solutions for all your projects, like laser engraving protection, temporary movie set backdrops, container markings and in cases where you're using specialty vinyls or dealing with UV inks. Whatever your application, you'll find the right fit in our family of tapes.

582U medium tack | premium paper
Laser masking for smooth surfaces
Protects against smoke damage during laser etching
Adheres well to smooth surfaces
ULTRA® adhesive provides superior adhesion to liner

592U high tack | premium paper
Laser masking for textured surfaces
Protects against smoke damage during laser etching
Adheres well to textured surfaces
ULTRA® adhesive provides superior adhesion to liner

794U very high tack | premium, heavyweight paper
Designed for dusted and frosted etched glass vinyls
ULTRA® adhesive provides superior adhesion to liner
Tear resistant

1320 high tack | clear film
Perfect for detailed graphics
Pairs well with specialty vinyls like etched glass, reflective, and holographic films
Clarity helps you achieve perfect placement
ULTRA® adhesive provides superior adhesion to liner

TransferRite 582U and 592U work great as a mask for laser cutting, helping you avoid the risk of frustrating smoke damage while engraving.

Tackling a tricky etched glass vinyl application? TransferRite 794U makes installations of the most troublesome vinyls a breeze.

For holographic films that may be difficult to transfer, our 1320's high tack Ultra adhesive adheres well and makes these installations easy.

6932 StencilRite

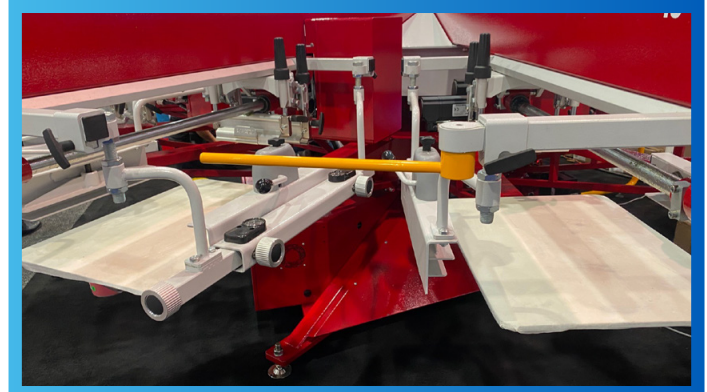

Heavyweight paper tape on a crepe liner
Temporary wallpaper for movie set backdrops, designs, and displays, in addition to stencil applications
Cost effective, time saving, and easy to dispose of
Can be used for container markings
Able to be steel rule die cut

StencilRite 6932 offers a remarkable, cost-effective way to change painted temporary displays and backdrops in store fronts and on movie sets.

PM-12 PalletMask high tack | standard paper

Protective masking for screen printing pallets
Use ensures a fresh, smooth surface for every print run
Removes cleanly and easily
Eliminates the need for cleaning solvents

PM-12 PalletMask protects screen printing platens from the mess caused by inks, allowing you to easily peel the tape off to reveal a clean surface.

PM-50 PaintMask yellow vinyl stencil film

For RV, fleet, and marine paint applications
Cuts and weeds easily
Conforms to compound curves and leaves crisp paint lines
Works on a wide variety of paint chemistries
Removes cleanly and easily in one piece
Pairs well with 592U application tape

1524 very high tack | transparent film
Protects graphics during die cutting and fabrication
Adheres to both textured and smooth surfaces
Tear resistant

PM-50 PaintMask is great for stenciling watercrafts during marine paint applications on vessels of all sizes.

StencilRite 6932 and PaintMask PM-50 are two great options for stenciling designs on awnings, umbrellas, and other textiles.
